

Press release

March 14th 2019 – Immediate release

Owl Games in Paderborn to open with LaserMaxx Lasergames

Paderborn opening will mark 78th German location of the Dutch manufacturer of professional laser tag equipment

De Bilt, March 14th 2019 – Historians date the modern city of Paderborn back to 777 when later emperor Charlemagne constructed a castle near the Pader springs. Over a century later, Dutch laser tag manufacturer LaserMaxx is happy to announce its 78th opening in Germany in that very same city. In collaboration with R&S Kletterpark and starting this spring, Paderborn will see the opening of Owl Games at the Hohenloher Weg 2.

LaserMaxx CEO Marcel Röhrs comments: “The opening of Owl Games has all promise to be a great entertainment venue for Paderborn. Next to LaserMaxx as a major crowd-pleaser, you can also enjoy escaperooms, VR and mind games. Residents of Paderborn will undoubtedly be delighted with this opening. What’s more: this opening marks the 78th LaserMaxx opening in Germany. For us, this is a reward of all the hard work we have done in Germany the last years and we couldn’t be happier.”

With the location’s opening fast approaching, Residents of Paderborn and beyond are encouraged to book lasergames through the location’s website at www.owl-games.de.

Recreation activity

Laser tag is a popular and active recreation activity for groups and parties in which each participant receives a laservest and a lasergun. The goal of the game is to score points by tagging opponents and of course, avoid being tagged. In a laser tag location the game and the player perception receives an impulse by the addition of artistic UV-paintings and light-, sound- and smoke effects.

About LaserMaxx Lasergames

Founded in 1995, Dutch LaserMaxx Lasergames is market leader in professional laser tag equipment. Hosting features such as calorie-tracking, integrated memberships, a reality interface and many more innovations, the laser tag products of LaserMaxx can be played with in more than 350 locations in over 50 countries globally.
